

NEW YORK, NY – September 30, 2009 – Last night, [Crimson Oak Academy](#), an innovative online business academy, hosted a reception following Forte Forum’s “The MBA Value Proposition” at Megu restaurant in downtown New York City.

The reception provided an intimate and relaxing atmosphere, while attendees were treated to cocktails, and learned about the company’s MBA prep program, E+MBA, an intensive study and admissions counseling program that prepares young professionals to enter America’s most elite business schools.

“I’m the kind of person who enjoys going to these type of receptions, and this one was quite sophisticated, enlightening, and very informative,” said **Tamika Ashman**, an attendee of the reception. “I didn’t know about the [Enhanced Pre-MBA] program before, but now that I do know about it, it’s something I will consider.”
